DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 12 are rejected under 35 U.S.C. 102(b) as being fully anticipated by Moteki et al.

3. Moteki et al. disclose starting a screen display of the navigation system showing a predetermined type of information, detecting if a user has changed to a new screen other than that showing the predetermined type of information, and displaying a screen showing the predetermined type of information within a vacant space in the new screen or by superposing on the new screen in figure 9, and on column2.

Allowable Subject Matter

4. Claims 2 through 11, and 13 through 22 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose detecting if a user has changed to a new screen other than that of the route guidance mode; determining whether the user has reached the destination; and displaying a route guidance screen within the new screen when the user has not reached the destination. The prior art discloses displaying both route data and other data, but not based on whether user has reached the destination it is manually selected by the user.
